

European Aviation Safety Agency

Terms of Approval

**Design Organisation Approval Certificate
EASA.21J.129**

1. Scope of approval

This Design Organisation Approval has been granted for:

- designing minor changes and minor repairs to aircraft in accordance with the applicable type-certification basis and environmental protection requirements in the following area:
 - cabin interiors
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2. Categories of products

Small and large aeroplanes, small and large rotorcraft

3. List of products

[Not applicable]

4. Privileges

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) [Not applicable]

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design and repairs as "major" or "minor".
2. to approve minor changes to type design and minor repairs.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA nr. EASA.21J.129".

5. Limitations

[See also in 1, above]

1. No repairs to primary structure
2. For internal composite/metallic repairs, no repairs are allowed on areas where there are load bearing pick-ups and fittings.
3. ASL elected not to have the capability to submit major repairs.

Date of issue: 10 August 2007
